**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, "convolving each of a set of digital samples" has been replaced with ----  
convolving each of a first set of digital samples ----

***Allowable Subject Matter***

Claims 1, 3-10 and 12-20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose nor suggest convolving each of a first set of digital samples representing the assessment of the characteristic of an input signal with at least two sets of digital samples representing selected impulse responses appropriate to the characteristic to generate a series of output digital samples. Although Coleman discloses an apparatus which stores an impulse response of at least two impulses, repeatedly assesses a characteristic of the input signal, selects at least one of the impulse responses to apply to the input signal in dependence of the result of the assessment and applies the selected impulse response to the input signal, the reference does not disclose the specific step of convolving claimed by the Applicant in independent claims 1

and 10 and recited above. As a result, claims 1 and 10 and their dependents, claims 3-9 and 12-20 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
